

CORPORATE UNIVERSITY (CU)

The Institute has been developing and managing online corporate universities for supermarkets, retail associations, and international retailers since 2005. Our corporate university clients include Eurocash—Poland’s largest retailer/wholesaler, APAS in Brazil, National Grocers Association (NGA) and Grocery Outlet in the United States. These organizations have custom websites, branding, certificates, catalogs and courses. Below are some of the options to customize your corporate university.

CU OPTIONS

PUBLIC WEBSITE

Your external training website, branded with your logo and colors.
\$3,000 annually

CERTIFICATE

Your training certificates are branded with your logo and the signatures of your executive team.
\$1,000 one time fee

BRANDED LMS

The LMS is branded with your logo.
\$2,000 one time fee

CU CUSTOMIZATIONS

ADD YOUR OWN COURSES

You can have your own courses, training materials and documentation in the LMS. Only your users can see them.
\$250 per course / one time fee

YOUR OWN CATALOG

You can customize the course catalogs (**free with CU**).

GROUP

Setup cross sectional groups (ie. managers, cashiers, etc.).

INTEGRATION

You can have automatic data transfers between our LMS and your ERP/HR system (**ask for quote**).

SINGLE SIGN ON

Your users login to your system (intranet) and can proceed to our LMS without login in again (**ask for quote**).

BADGE PROGRAM

Your users will badges when they complete courses/requirements you define (**ask for quote**).

ONLINE TRAINING FOR FOOD RETAILERS

The Retail Learning Institute offers Food Retailers a complete online training program to develop and train their associates. If you are not taking advantage of the program, contact the Institute’s Learning Solutions team via email at info@retaillearning.org or call them at (773) 695-2611. Besides providing you with access to the online training, they will work with you to setup a program that works for your store.

SERVING CORPORATE UNIVERSITIES SUCH AS:

FEATURES

On **Monday, March 2, 2015**, the **Retail Learning Institute** launched a brand new LMS. This new tool means significant upgrades, most relevant a cloud-based system that supports mobile learning. Here are a few of the most popular upgrades:

SESSIONS TRACKING

Track how many sessions users have for a course or overall

TIME TRACKING

Track time in a course and total time in training

MOBILE LEARNING

Courses are tablet ready

DASHBOARD

Get a snapshot of your group's training program, manage users and reports from a single screen

Register single or multiple users at once

More detailed user profiles, including Department and Notes

Inactivate or delete user accounts

Add your own courses, ppts, videos, manuals, etc. \$250 per course one-time fee

Users can earn badges for their course work

Move users from one store to another

Print user certificates from the administrator account

WHAT IS A LEARNING MANAGEMENT SYSTEM (LMS)?

The LMS is the platform where the courses reside along with the student accounts and the administrator tools. In this platform your team can take courses, track their progress, you can run reports, and register and maintain your user's accounts.

REPORTING TOOLS & LEARNING PLANS

The reporting tool allows administrators greater flexibility. Now you can use standard reports or customize them to meet your needs. You can schedule reports to receive them via email on a set date, recurring date, or time. It is a powerful tool that you can automate and customize to track your team's online training usage and performance.

REPORT TYPES

Standard Reports

- Users
- Courses
- Tests

Custom Reports

Pick and choose the information in your report (ie. user, course, store department)

SUMMARY

Course Summary

View a course historical usage at your store (graphic snapshot)
Detail a user's testing for a course

User Summary

View a user's historical training record (graphic snapshot)

REPORT FEATURES

Schedule

- Schedule reports
- Receive them via email
- Set recurrence

Export

Export reports as:
.xls, .csv or .html files

One-click

View/Run all reports with just one-click

LEARNING PLANS (LPs)

Learning Plans are custom course lists that you can define and assign to your associates. LPs allow you to determine the course order and set pre-requisites. They also facilitate course assignments, performance tracking, and standardize the learning curricula for your store/organization.

ARRANGE COURSES' ORDER

Define the order in which courses should be taken

SET PREREQUISITE

Lock courses until its prerequisite course has been completed

LP ASSIGNMENTS

Assign LPs to users, departments and/or stores

UNLIMITED CUSTOM LPs

Create as many LPs as needed

ASSIGN LP CERTIFICATES

Each LP has its own certificate

SCHEDULE

Assign completion deadlines to LPs

EDIT LPs

Add/Remove courses, change prerequisites and descriptions etc.

LPs OPTIONAL FEATURE HAS A COST OF \$250 (ONE TIME FEE)
